Order of Content

→ Name, phone no, Address {not complete},
email id (L), linkedin, Github, etc, tagline

Suggestion

- ① Don't add anything non-technical.
{ Hobbies other coding,
Achievements other coding }

- ② Never give complete address

- ③ Do not add Personal Picture

- ④ Everything should be
clickable.

- ⑤ Tag line
should be
crisp & not self-boasting.

Delhi, India

→ If fresher (0-6 months experience)

- Education 1-2 1-2 (ITF/T)
- Personal Projects / Work Experience
- Skills A
- Achievements
 - Academic
 - Work

→ If experienced (>6 months)

- ① → Work Experience A
- ② → Skills A
- ③ → Achievements
- ④ → Education

Optional fields

① Soft skills {add when you have proof}

→ Communication Skills

→ Leadership skills

→ Management Skills

{to fill resume} ④ hobbies related to coding

→ teaching & mentoring

→ competitive programming

→ Game involving problem solving (chess, Sudoku, rubik's cube)

② Certifications {Value addition}

→ Cloud (Azure/AWS)

→ SQL course

→ language (Java/Python)

→ DSA course

→ MOOC

③ Teaching Assistant

Coding Society

Campus Ambassador

{ learning }

→ Microsoft Excel / Powerpoint

→ Abacus / Physics / English / Mechanical / Civil - ...

→ X days workshops / webinars / seminar

→ vs code & other code editors (except Android Studio)

→ School Achievements (scholarship / Academic Excellence)

Education

① Graduation

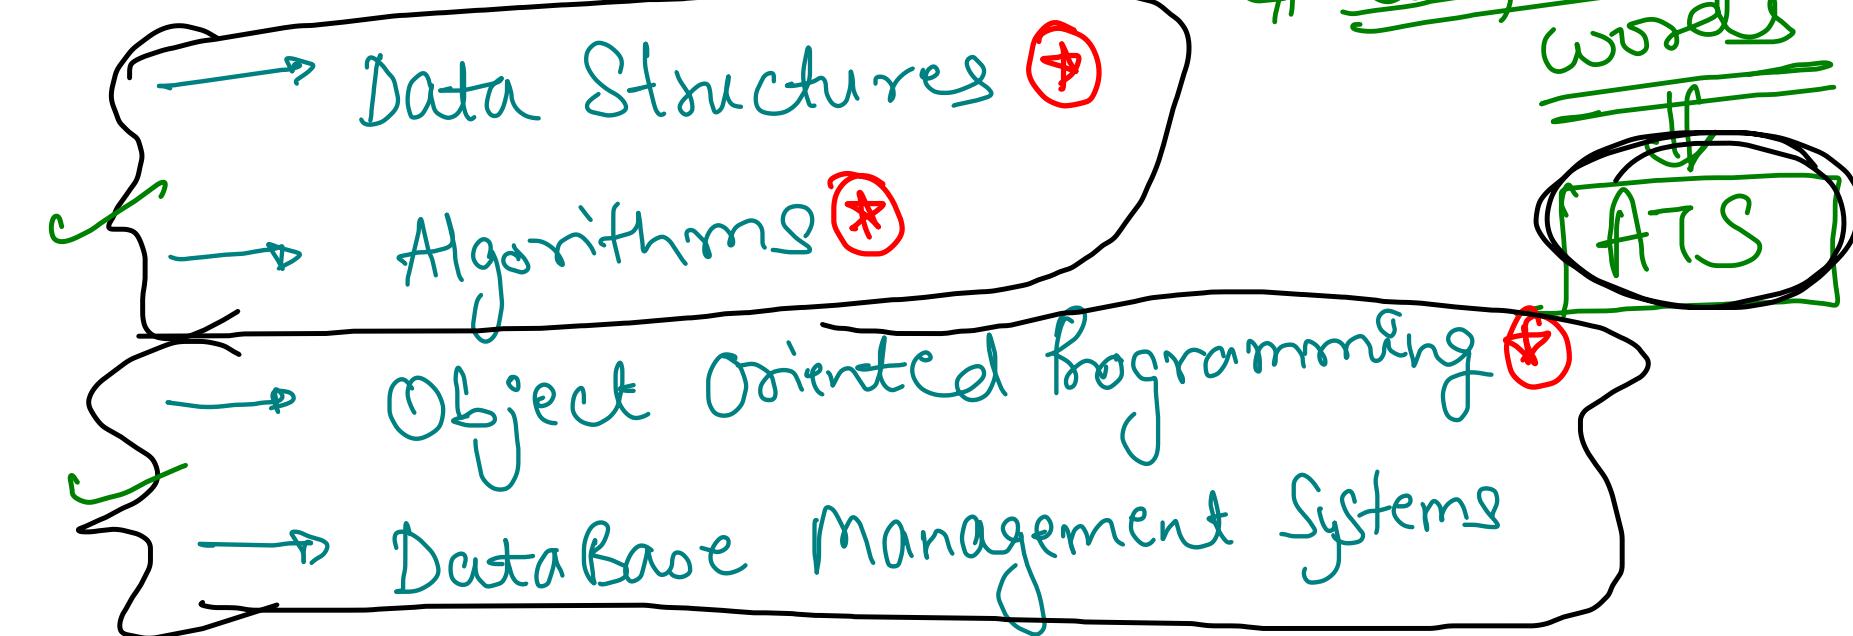

- College name & Degree
- Passing year ~~☆~~
- CGPA / Percentage

② High School (XII)

- School Name & Boards

- Passing yr
- CGPA / Percentage

Coursework (if CS student)

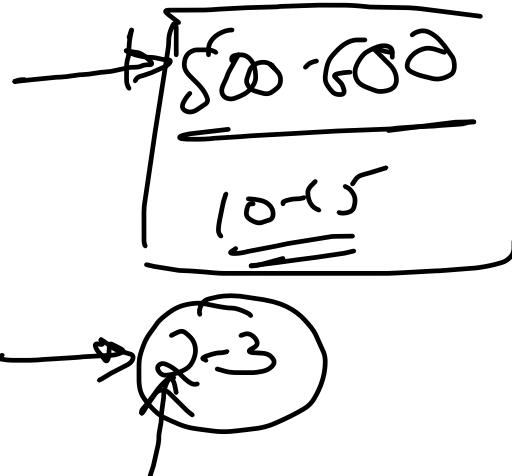

Operating Systems

Computer Networking

Programming fundamentals
(C/C++)

Personal Projects / Work Experience

Add starting & ending date

Add projects in chronological order

{ Top → Newest One
Bottom → Oldest One }

POINTS Paragraph

Add links to the "repository" / "live application".

Add link to company's website

Must to mention technology stack

Make key words bold :→

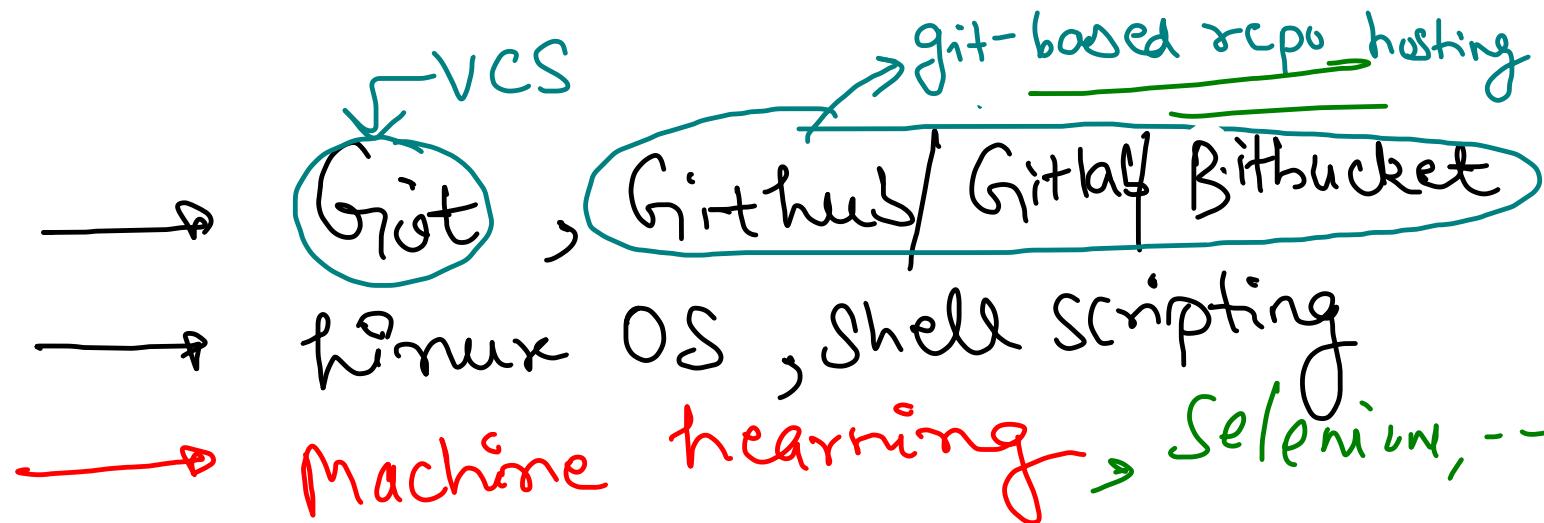

Big point → hosted on heroku/github pages/
playstore/etc.

EMPHASIS →
users
response time
impact
techy words
leadership/management

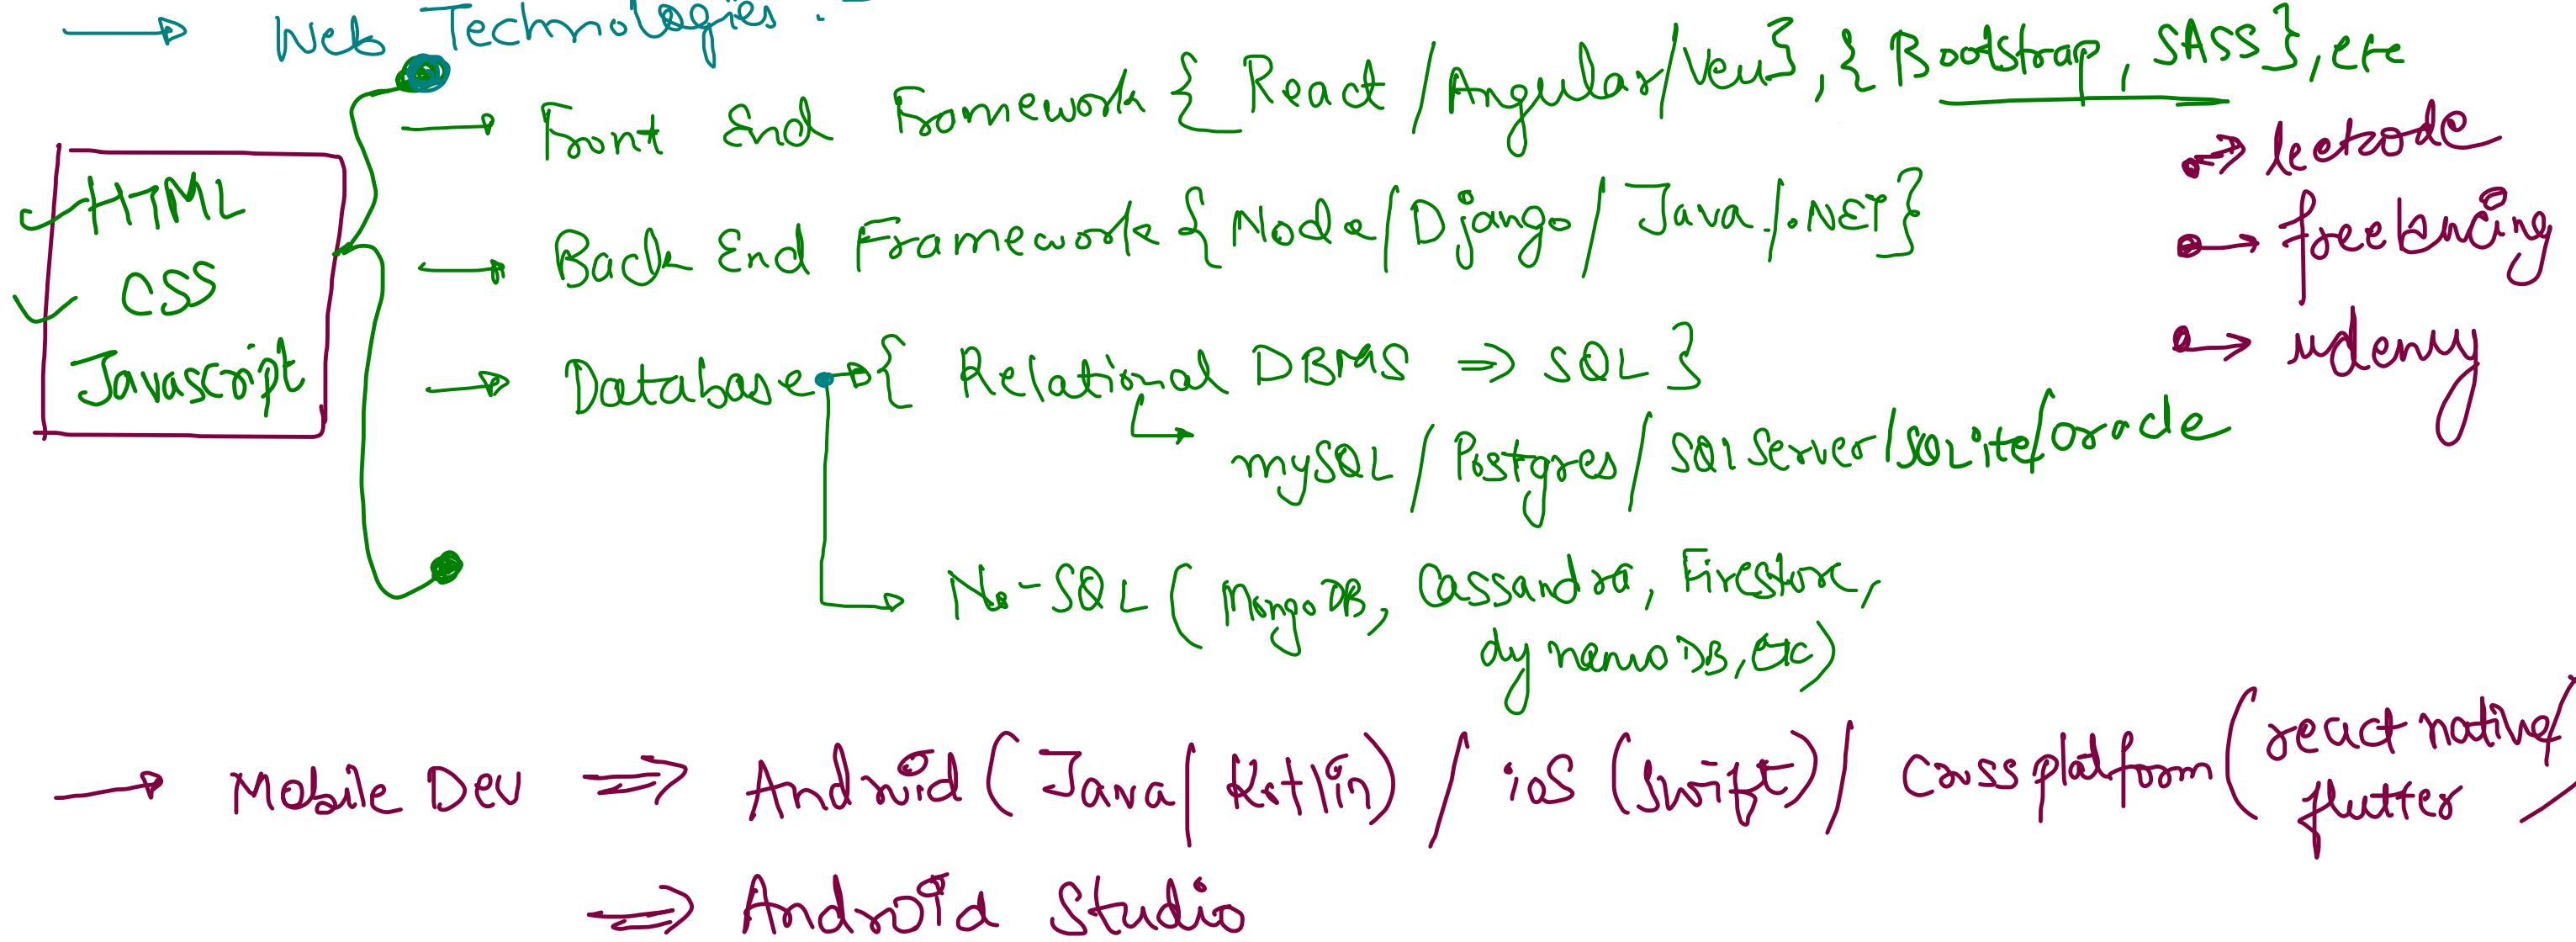

Skills

- Programming languages (Java)
- Data Structures & Algorithms

→ Web Technologies :-

~~Achievements~~

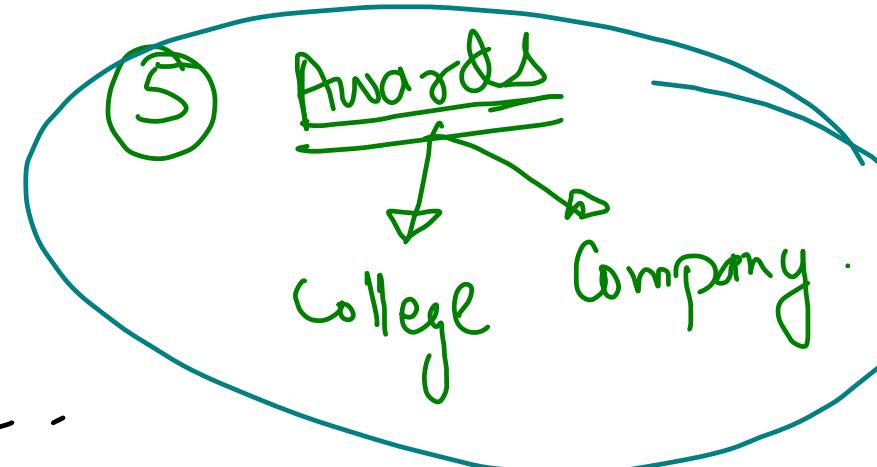

① Data Structures & Algorithms Problem Solving

- Provide link to leetcode/gfg profile
- Solved 500+ DSA problems on leetcode/GFG/pepcoding
- 3* / 4* / 5* on hackerrank/hackerearth.
- Gave 15+ live/virtual DSA contests on leetcode & have x ratings.

② Competitive Programming Contests

- Provide link to CP handle -
- Gave 20+ Competitive programming contests on Codeforces / codechef / google kickstart / Facebook hackercup etc.

- RANKS in top contests { overall ranking, India ranking }
- RATINGS { Specialist } Expert | Cand. Master [etc on Codeforces] {

linkedIn Profile Building

→ What is LINKEDIN :→ Social Media platform for working professionals mostly in Software industry.

(Q) Why linkedIn? → Recruiters, Hiring Managers, SDE-1 / 11/111

→ LinkedIn Job portal

→ Job **Referrals**

→ Connections :→ Showcasing progress

→ Recommendations

→ **Job openings**

Archit Aggarwal • 3:49 PM

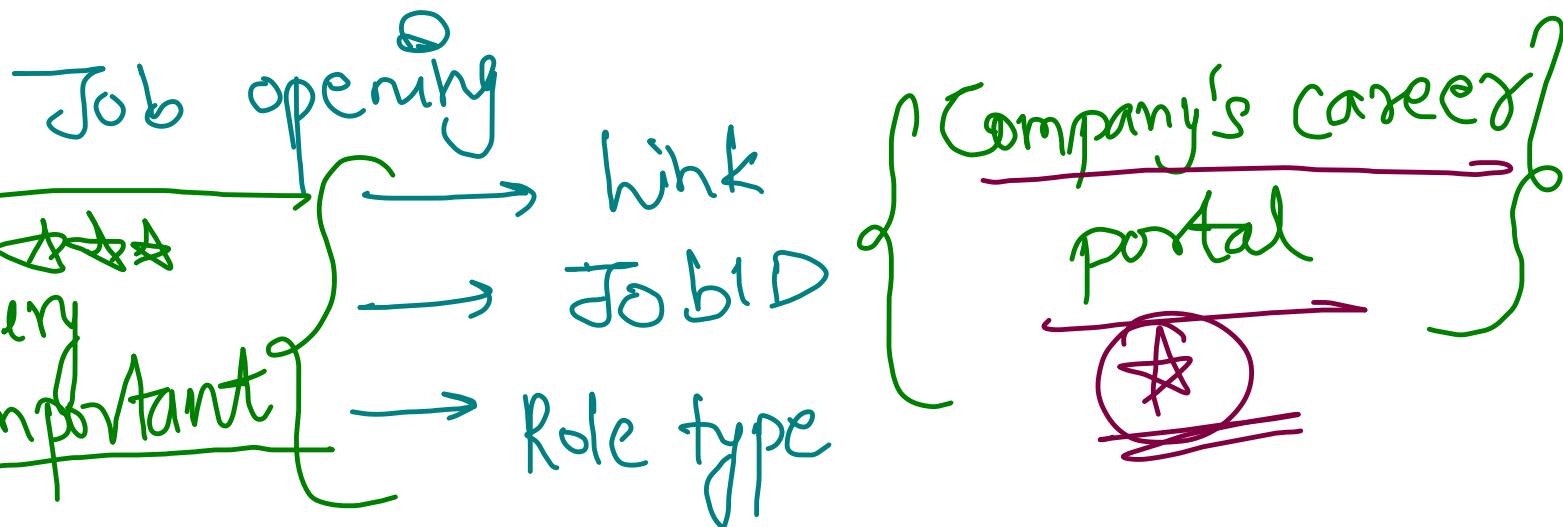

Greeting

Hi Aman, I hope you're doing well. I am interested in this
internship (<https://careers.microsoft.com/us/en/job/1049887/Engage-Mentorship>) {JobID: 1049887, Job Role: Individual Contributor} at Microsoft. Would you be willing to share
my LinkedIn profile with the hiring team and let them know
that I have applied? It would mean a lot if you could put in
a good word.
